Introduction to the Business Scouts for Development (BSfD) programme and trade fair promotion

Individual advice on sustainable engagement: Business Scouts for Development work as development policy experts in more than 30 countries across the globe. On behalf of the German Federal Ministry for Economic Development and Cooperation (BMZ), they advise companies on development policy issues and promote responsible business engagement through cooperation projects.

They initiate and accompany cooperation projects that are economically viable and promote sustainable business development locally. At Biofach/Vivaness 2022, the BSfD programme will be in Nuremberg with two delegations - 20 companies from Bolivia, Botswana, Brazil, Cambodia, Ghana, Madagascar, Mauritius, Rwanda, Senegal and Uganda. All 21 companies offer reliable and certified high product quality.

Overview of the Business Scouts programme at Biofach and Vivanes

As leading trade fair platforms, Biofach and Vivanes are an ideal opportunity for participating companies to gain experience at the world's leading trade fairs and establish business contacts.

On 26th and 27th July 2022, the companies can be visited for meetings and testing of hand samples in the meeting room "Mailand" (NCC Mitte, level 1) of the exhibition centre.

The delegation's trip includes further training on trade fairs, company visits in Germany and provides in-depth knowledge of the German organic market.

In order to increase individual awareness, provide in-depth knowledge and extend outreach, the two delegation trips are designed as a hybrid format. On the virtual Business Scouts for Development trade fair platform Showcase, all participating companies have their own online trade fair booth where visitors from all over the world can access the companies. After a one-time registration at the first visit, every visitor can visit every company, including bilateral chatting.

Presentation of the GIZ trade fair team at Biofach and Vivanness

The Biofach trade fair team of GIZ is part of the Business Scouts for Development programme. As contact persons for development cooperation, they accompany and advise the participating delegation and arrange contacts. They support the companies in developing and implementing actual contact requests and project ideas.

Bubune Skincare Limited

Bubune Skincare is a manufacturer of Shea-based bath and beauty products. Our range of products includes body lotions, body butters, shea soaps and African black soap gel and bar. All our products are plant-based and paraben-free. Our products are handmade using edible oils and butters. We are guided by the knowledge that the skin being the largest organ absorbs everything we apply and transports it into the bloodstream.

We strive to care for the environment by using glass and coconut shells for our packaging where possible and operate with the ethos of giving our customers information about what goes into their skincare products.

Products & Services

Body Lotion, Body Butter, Shea soaps,
African Black soap

Certification

Vegan certified, Paraben free certified ,
FDA cosmetics manufacturing licence,

Donkey Milk Industries

Secret Kalahari was founded in 2016 as Donkey Milk Industries (Pty) Ltd under the Botswana Companies Act and is a 100% citizen owned.

We are a sustainable family business crafting organic product for a local and international market. Our products range from donkey milk cosmetics like soaps, lotions, scrubs to edibles like fresh donkey milk and various indigenous capsule remedies using powdered donkey milk and plant extracts indigenous to the Kalahari.

We believe that the Kalahari Desert contains many hidden treasures that are worth sharing with the world, hence the name Secret Kalahari.

We started by selling a few liters of donkey milk during markets in 2016 to having five stalls in Gaborone, distributors across the SADC region and plans to grow even further!

LYCHEELAND

Lycheeland, created in 2015, is a Malagasy company specialized in production of dried exotic and organic fruits by dehydration, without added sugars or sulfites (100% natural), and superfoods from Madagascar (EOS and NOP).

Lycheeland promotes rare exotic food to create innovative recipes and products that are not yet known on the market.

Represented in Japan, Europe and Canada, Lycheeland exports 90% of its production (especially to Japan). In addition to the BtoB market, Lycheeland also develops its own brand, first on the local market, then on the regional and international markets.

Lycheeland currently employs 11 people, including 9 women and 2 men. Beyond creating jobs, we strive to strengthen employability of women in our company and bring decent work to people who did not have the opportunity to get a degree.

Products & Services

exotic dried fruits, dried vegetables, dried leaves, fruit powder, spices

Handcrafted Cashew Nuts Stung Treng

Handcrafted Cashew Nuts Stung Treng was established in early 2021 with a vision of inclusive growth, prospering the local community by keeping a bigger part of the value chain local. Stung Treng Cashew is the finest, premium quality cashew nut that satisfies the discerning needs of local and global markets. Each cashew nut is removed from fresh cashew apple which is provided by local farmers in the Stung Treng Province and other nearby provinces. The company accommodates both retail and wholesale customers with final and semi-final products and is preparing to export to East Asia, Europe, and North America. About 80% of the factory employees are women that receive equal pay and equal work, and through the company have access to educational programs.

Khmer Organic Cooperative Co., Ltd.

Khmer Organic Cooperative is a social enterprise established in 2014, working along the whole agricultural supply chain from farm gate to markets. With the vision to offer organic food to everyone, the company brings fresh and high-quality organic produce to consumers and creates awareness of organic agriculture for better health, a better environment, and sustainable socio-economic development in Cambodia. In 2017 the company's farms received EU and USDA Organic certifications. Khmer Organic works in close cooperation with relevant smallholder farmers and agricultural cooperatives, taking responsibility to promote income and livelihoods of farmers in rural areas. Well established in the local market, Khmer Organic is now ready to export high value Cambodian products overseas. To the export market Khmer Organic offers Cambodian cashews, palm sugar, Kampot pepper and wild forest honey.

La Plantation

Created in 2013, La Plantation, a family-owned project, is committed to grow and deliver the best sustainable spices.

In our flagship farm in the Kampot area in southern Cambodia, we follow century-old traditions to preserve the original taste of each spice. We create new blends and recipes every year, bringing the unique Kampot terroir to tables around the world.

Our production model respects fair trade principles. As soon as harvested, the peppercorns, spices, roots, leaves and fruits are processed immediately in our on-site processing facilities. This freshness preserves the quality and the aromas of our products.

From farm to table, we build a short supply chain with trusted partners to guarantee the freshest spices.

Products & Services

Natural spices and herbs: pepper, roots, chili, aromatic herbs, herbal teas, spice blends, spice sauces

Certification

Organic certificate (EOS, NOP, JAS),

Pepper Bay Co. Ltd

Pepper Bay is an organic Kampot pepper and spice producer. Pepper Bay is producing a pepper of excellence by combining traditional cultivation methods and ancestral know-how with modern quality standards.

In order to prevent damage to the peppercorns and therefore ensure unrivaled flavor, a significant part of the process is done by hand.

Pepper Bay puts a strong emphasis on producing the best quality products and chefs and amateurs around the world alike recognize its products for their exceptional quality.

Pepper Bay's farm is certified organic by Ecocert for the European Union and North America. Respect for the people, for the environment and sustainability are driving factors in its business model.

Sela Pepper Co., LTD

Sela Pepper Co., Ltd specializes in both organic and conventional pepper products. It operates a pepper processing plant in the Cambodian province of Tbong Khmum, equipped with high-end facilities and an in-house laboratory and Sela Pepper has certified with BRC, Sedex, ISO 22000:2015, ISO 14001:2015, Organic (EU, USDA, and JAS), Halal and OU Kosher. The company works closely with 600 farmers who follow with Good Agricultural Practices (GAP) and organic standard. Sela Pepper is a well-established brand that can be found not only in most Cambodian supermarkets, but is also being exported to Europe, the USA, New Zealand, Japan, Korea, Taiwan, Hong Kong, India, and Thailand, Vietnam. The Company aims to promote organic farming in a sustainable manner and to explore domestic and global markets for the organic products they produce. Major emphasis is placed upon improved living standards for small and marginal farmers through fair trade practices.

SHE Agrocarn Products Co., Ltd

SHE Agrocarn Products Co., Ltd is a Cambodian company that imports, exports and distributes processed food products. The company sources its raw materials for food manufacturing, finishing products and fresh fruits from Cambodia and combines products from Cambodian producers for export markets. For the local market, they are working to develop and support Cambodian processors and help distribute their products domestically through their channels. SHE Agrocarn is under female leadership and has strong goals to drive its business to long-term success and sustainability together with all their partners and customers and to continue working socially responsibly, positively impacting job creation directly and indirectly for farmers and staff.
